By Senator Taylor:

March 16, 1925.

Mr. George A. Van Smith,
President, State Board of Prison Directors,
No. 1 Sansome Street, San Francisco, California.

MY DEAR MR. VAN SMITH: Referring to our conversation, I would be glad if you could give me your views on the following questions:

1. How can the prisoners be placed on a self-supporting basis?
2. What is the annual deficiency now for each prisoner?
3. What does the budget provide this year for employment of prisoners?
4. What is the total of deficiency for each prisoner for 1925?

5. Number of prisoners in San Quentin at the present time?
6. Number of prisoners at Folsom?

Please state in each number of cells for accommodation of prisoners and whether number of prisoners exceeds the accommodations.

I would like to have your views as quickly as possible, and quite fully, on what you think should be done to provide work for the men and, in a measure, to make the institution self-supporting. Please make any other suggestions looking toward the improvement of conditions.

With kind regards, I am,

Sincerely yours,

(Signed) CADET TAYLOR.

STATE BOARD OF PRISON DIRECTORS OF CALIFORNIA,
March 18, 1925.

Honorable Cadet Taylor,
California State Senate,
Sacramento, California.

MY DEAR SENATOR TAYLOR: It gives me great pleasure to submit the following answers to the interrogatories in your letter of March 16, touching California State Prisons. For the purposes of identification and segregation I shall repeat, in each case, your question and append the answer thereto.

1. How can the prisoners be placed on a self-supporting basis?

By following the methods employed by other forward-looking states, that is to say, by practical industrialization of prison plants within the general provisions of existing laws.

Every prisoner in the Minnesota penitentiary at Stillwater, the Indiana penitentiary at Michigan City and the Michigan prison at Jackson is not only self-sustaining but earning some wage in addition thereto.

When I went over the Minnesota prisoners' pay roll a few months ago, I found considerable numbers of men earning for themselves as much as $1 a day.

The Michigan prison pay rolls disclosed a few men earning over $1.25 a day.

The Minnesota prisoners have earned and paid for their prison plant—one of the finest in the world.

Our laws are the so-called "State Use Law" of 1911, and the "Jute Products Law" of 1885, and the several amendments thereto which, however, in no wise change the fundamental provisions.

The State Use Law authorizes the Board of Prison Directors to develop manufactories at the two State Prisons and to manufacture therein products for sale to the State or any political subdivision thereof. The law is mandatory in its terms as to the State in that it provides that the Board of Examiners (now the Board of Control) shall purchase for the State and State institutions the products of the prisons.

The Jute Products Law authorizes the Prison Board to establish jute plants at San Quentin and Folsom and to sell their products to the public, giving the California farmers preference in the matter of grain bags.

A furniture factory was established at San Quentin in 1911. For reasons that need not be discussed here, its product has been indifferent and its sales fairly correspond with the character of the product. The Prison Board has already made changes and entered into agreements with the State Board of Control which will put that factory on a commercial basis.

In this connection it is pertinent to say that probably it will not be possible at any time within the next decade to employ more than 7 or 8 per cent of the San Quentin Prison population in that industry.

The shoe industry at San Quentin is undergoing similar changes, but within the limitations of the State Use Law it will not be possible to employ in that industry, even when it shall have been modernized, more than eighty or ninety men, or approximately 2⅔ per cent of the population of that prison.

The jute mill at San Quentin is equipped with machinery bought forty years ago. It now provides employment, of a kind, for one thousand twenty men, or slightly in excess of 33⅓ per cent of the prison population. With modern machinery, two-thirds of the number of men now employed in that industry at San Quentin could and would produce 40 per cent more burlap than is now there produced.

The foregoing is the whole story of prison industrialization in California prisons. There is no industrialization at Folsom.

Now as to the initial steps in what we regard as the solution:

(*a*) An enamel metal plant at Folsom, that plant representing a plant cost of about $70,000, and the necessity of a revolving fund of $50,000 can produce all the enamel and pressed metal products used by the State for its motor vehicle department, hospitals, training schools and other institutions. It will provide employment for about 225 prisoners and on the basis of the prices paid by the State of California over the last five years,

would be not only self-sustaining but show an annual profit of from $25,000 to $40,000.

(b) The installation of a modern jute products plant at Folsom. The plant, equipment and revolving fund would represent a gross initial appropriation of approximately $600,000. Of that amount, $500,000 would be represented in capital investment, that is, building, machinery and equipment, and $100,000 in the necessary revolving fund for the purchase and handling of raw material. This plant would employ 700 men and would produce approximately 6,000,000 bags a year, which, combined with the present production at San Quentin, 4,000,000 bags, would constitute a little less than 42 per cent of the State's normal consumption of grain bags, to wit: 24,000,000 bags. It would make the State of California a real factor in the bag business. On the 4,000,000 bags a year we are making, and which we must sell at a price lower than the imported bag to induce the farmers to buy them, we are effecting to the farmer purchasers an annual saving of from $35,000 to $50,000. That saving, of course, represents a loss to the State, but that loss could be wiped out by quantity production and nearly three times as many farmers permitted to participate in a proportionate saving.

The foregoing program is all in the way of industrialization that could be assimilated by the prisons during the ensuing biennium, but in succeeding bienniums the jute industry at San Quentin should be modernized and doubled.

Inseparably bound up with any plan to make California's prisons self-sustaining, is the urgent and unescapable necessity of acquiring a tract of arable land with water, susceptible of intensive cultivation and close enough to Folsom Prison to permit of its administration from that prison. It must be large enough to produce the vegetable diet of the two prisons and sufficient forage to build up the dairy herds at both prisons to a point where the prisons shall be relieved of the present money expense for milk products. You understand, of course, that for bone-making milk products must be included in the diet.

Such a tract as suggested to comprise approximately 500 acres and should be in the river district either below or above Sacramento. The original cost should not exceed $100,000. The mechanical and barrack equipment necessary to place it under cultivation would not exceed, inclusive of revolving fund, $65,000. The development of such land would in no wise interfere with the prisons' capacity for the assimilation of the tentative industrialization program set out above.

This suggested development in connection with the road camps would enable the prison board to put our prisons on a self-sustaining basis and it could be accomplished in the three ensuing biennial periods.

In the first sixteen months of their operation under the new law, the prison camps put all the men in them on a self-sustaining and compensation basis, and in addition effect an actual cash saving of $300,000 to the taxpayers of California.

With this development should go at the same time the completion of the prison plants, that is, a new 800-cell house at Folsom—including isolation and execution chambers—and completion of the east and north cell houses and additional dining room at San Quentin.

2. What is the annual deficiency now for each prisoner?

Exclusive of everything but food and clothing, the actual deficiency today for each prisoner is 36 cents a day, or approximately $100 a year. That, as indicated above, is the bare cost of feed and clothing.

Expressed in aggregate figures, for the ensuing biennium that is a loss of $500,000 a year, or $1,000,000 for the biennium.

Including salaries, wages, service and expenses, all of which is exclusive of depreciation and permanent improvements, the gross loss for the ensuing biennium, based on the budget now pending before the Legislature, would be $2,055,000, or approximately $1,027,000 a year.

3. What does the budget provide this year for employment of prisoners?

In the way of new industrialization, the budget provides for a new women's prison at San Quentin and its equipment. The plans of the Prison Board contemplate so industrializing the women's prison as to equip discharged prisoners with useful trades at which there is ready and profitable employment in California. And the board believes it can conduct such industrialization on a self-sustaining basis.

No other industrialization is provided in the budget.

4. What is the total deficiency for each prisoner for 1925?

This question is answered under No. 2.

5. Number of prisoners in San Quentin at the present time?

Inside population last night at San Quentin was 2844, gross population 3160—316 being at the road.

The total number of cells for the accommodation of 2844 prisoners locked up last night at San Quentin is 1370. Five hundred fifty of them house about 1400 men, with no sanitary provisions other than wooden buckets. In what we call the "new" prison, there are 800 single cells in which there were housed last night a few more than 1400 men.

6. Number of prisoners at Folsom?

The inside population at Folsom last night was 1296. There are, all told, at Folsom 862 cells. Three hundred thirty of them are in the original prison and wholly without sanitary equipment. Over 700 men were housed in those cells last night.

It should be said, in this connection, that the budget now pending provides for money sufficient to complete the "west wing" cell house at San Quentin, the external walls of which have been standing since 1913. This block, when completed, will add approximately 470 single cells to the San Quentin equipment.

Permit me, on behalf of the Board of Prison Directors, to express now our deep appreciation of your interest.

With every good wish, I am

Very truly yours,

GEO. VAN SMITH, President.

WITHDRAWAL OF SENATE BILL.

Senator Swing asked for and was granted unanimous consent to withdraw Senate Bill No. 833 from Committee on Governmental Efficiency and placed on file.

QUESTION OF PERSONAL PRIVILEGE.

Senator Taylor arose to a question of personal privilege and addressed the Senate as follows:

PERSONAL STATEMENT.

When Assembly Bill No. 699 was before the Agricultural Committee, we were informed that the license fee of $100 would only apply to large manufacturers, and not to retailers. I voted for the bill in committee, and in the Senate.

After the passage of the bill, I was advised that the small retailer who mixed poultry or other food supplies would be considered a manufacturer. And it came to my knowledge that the same dealer who was paying $50 for a license to sell fertilizer, was to be called upon for another $100 for grain license.

This seemed so unjust that later I gave notice in the Senate of a motion to reconsider. I do not claim to be a novice in regard to parliamentary rules, and know that to move for reconsideration I must have voted in the affirmative.

The Senate Journal on the following day to my surprise, recorded my vote in the negative. I did not so vote, and this was clearly a clerical error.

My object in moving a reconsideration was to offer an amendment clarifying the situation to which reference has been made, for I heartily approve the general purposes of the bill, and it has had my constant and consistent support.

Bowing to the request of some of the older members, and not wishing to violate either the written or unwritten rules of the Senate, the motion to expunge the record will not be insisted upon.

But in making this personal statement, I respectfully call the attention of the Senate to the strange parliamentary situation that may arise upon some important bill, if by reason of a mistake made in recording a vote a Senator is placed in a false position, and deprived of his reconsideration rights upon the floor.

In the Congress of the United States, I am sure the journals are corrected, and it would seem with all the traditions of the California State Senate, our rules should provide a remedy for a parliamentary situation such as this, where a member is deprived of his rights upon the floor, and his vote is recorded directly opposite from his answer to the roll call. Today this matter is not so very important, but some day it may be.

CADET TAYLOR.

STATEMENT BY THE PRESIDENT.

The President, while recommending that Senator Taylor's statement be printed in the Journal, expressed a desire to concur with the ruling of the Presiding Senator, who, on the preceding day had rendered the decision that a roll call, after once having been announced, can not be changed, even though a member might claim that he had been erroneously recorded. The President further pointed out that, although

in the present case the matter might not be of great importance, it was conceivable that cases might arise where a supremely important bill which had passed by a minimum of votes might be jeopardized by a subsequent demand of a Senator that his vote be changed from the way it was recorded in the Journal. He further called attention to the fact that after each vote, the Secretary repeats it in order that the Senator voting may know how his vote was understood, and that a Senator before the announcement of a vote always has permission to ask how he is recorded. For these reasons the chair ruled that the Journal must never be corrected so far as the roll call is concerned.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its forty-sixth regular session commencing on the fifth day of January, 1925, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that a new section to be called section 15 is hereby added to article XIII of the constitution of the State of California, said section to read as follows:

SEC. 15. Taxes levied, assessed and collected as hereinafter provided upon companies owning, operating or managing any automobile, jitney bus, stage or auto stage used in the business of transportation of persons as a common carrier for compensation over any public highway in this State between fixed termini or over a regular route and not operating exclusively within the limits of an incorporated city or town or a city and county, other than busses used exclusively for the transportation of pupils to or from any public school, shall be entirely and exclusively for State highway purposes, and shall be levied, assessed and collected in the manner hereinafter provided. The word "companies," as used in this section, shall include persons, partnerships, joint stock associations, companies and corporations.

(*a*) All such companies shall annually pay to the state a tax upon their franchises, cars, equipment, and other property or any part thereof, used exclusively

in the operation of their business in this State, equal to four and one-quarter per cent of the gross receipts from operations of such companies, and each thereof, within this State. When such companies are operating partly within and partly without this State, the gross receipts within this State shall be deemed to be all receipts on business beginning and ending within this State, and a proportion, based upon the proportion of the mileage within this State to the entire mileage over which such business is done, of receipts on all business passing through, into, or out of this State.

Such taxes shall be in lieu of all other taxes and licenses, State, county and municipal, upon the property above enumerated of such companies; *provided*, that nothing herein shall be construed to release any such company from the payment of any amount to be paid or required by law to be paid for any special privilege or franchise heretofore granted by any of the municipal authorities of this State.

The revenues from the taxes provided for in this section shall be used for the reconstruction, maintenance and repair of State highways and shall be placed in the State highway maintenance fund, or such special funds as may be provided by law. In the event that all other State revenues are at any time deemed insufficient to meet the annual expenditures of the State, there may be levied in the manner to be provided by law, a tax, for State purposes, on all the property in the State, including the classes of property enumerated in this section, sufficient to meet the deficiency. All property enumerated in this section shall be subject to taxation, in the manner provided by law, to pay the principal and interest of any bonded indebtedness created and outstanding by any city, city and county, county, town, township, or district on the first day of October, 1925. The taxes so paid for principal and interest on such bonded indebtedness shall be deducted from the total amount paid in taxes for State purposes.

(*b*) All the provisions of this section shall be self-executing, and the Legislature shall pass all laws necessary to carry this section into effect, and shall provide for the valuation and assessment of the property enumerated in this section, and shall prescribe the duties of the State Board of Equalization and any other officers in connection with the administration thereof. The rates of taxation fixed in this section shall remain in force until changed by the Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof. The taxes herein provided for shall become a lien on the first Monday in March of each year after the adoption of this section and shall become due and payable on the first Monday in July thereafter. The gross receipts herein mentioned shall be computed for the year ending the thirty-first day of December prior to the levy of such taxes and the value of any property mentioned herein shall be fixed as of the first Monday in March. Nothing herein contained shall affect any tax levied or assessed prior to the adoption of this section.

(*c*) No injunction shall ever issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the collection of any tax levied under the provisions of this section; but after payment action may be maintained to recover any tax illegally collected in such a manner and at such time as may now or hereafter be provided by law.

BREED, Chairman.

OPINION OF ATTORNEY GENERAL.

The following opinion of the Attorney General was received by Senator Breed and ordered printed in the Journal:

STATE OF CALIFORNIA, OFFICE OF ATTORNEY GENERAL.
SACRAMENTO, CALIFORNIA, March 17, 1925.

Honorable Arthur H. Breed,
Chairman, Committee on Rules,
Senate Chamber, Building.

DEAR SENATOR BREED: In response to your request of the 13th inst., relative to the effect of the adoption of the amendment to section 9 of article IX of the constitution upon the necessity for senatorial confirmation of persons appointed by the Governor to be Regents of the University of California, I respectfully advise you as follows:

Prior to the adoption of the amendment of 1918, the section read, in its pertinent part, as follows:

> "Sec. 9. The University of California shall constitute a public trust, and its organization and government shall be perpetually continued in the form and character prescribed by the organic act creating the same, passed March 23, 1868 (and the several acts amendatory thereof), subject only to such legislative control as may be necessary to insure compliance with the terms of its endowments, and the proper investment and security of its funds."

By the provisions of the organic act of March 23, 1868, senatorial confirmation of persons appointed to be regents was necessary, and that requirement was carried into section 1426 of the Political Code. The amendment adopted at the general election held November 5, 1918, eliminated from the constitution the language above quoted and, in its place, substituted the following:

> "Sec. 9. The University of California shall constitute a public trust, to be administered by the existing corporation known as 'The Regents of the University of California,' with full powers of organization and government, subject only to such legislative control as may be necessary to insure compliance with the terms of the endowments of the university and the security of its funds. Said corporation shall be in form a board composed of eight ex-officio members, to wit: the Governor, the Lieutenant-Governor, the Speaker of the Assembly, the Superintendent of Public Instruction, the President of the State Board of Agriculture, the president of the Mechanics Institute of San Francisco, the president of the alumni association of the university and the acting president of the university, and 16 appointive members appointed by the Governor; *provided, however*, that the present appointive members shall hold office until the expiration of their present terms. The term of the appointive members shall be 16 years; the terms of two appointive members to expire as heretofore on March 1st of every even-numbered calendar year, and in case of any vacancy the term of office of the appointee to fill such vacancy, who shall be appointed by the Governor, to be for the balance of the term as to which such vacancy exists."

A reading of the amended section forces the irresistible conclusion that the power of appointment is vested in the Governor alone, without any necessity for senatorial confirmation of the appointee.

Very truly yours,
(Signed) U. S. WEBB, Attorney General.

RESOLUTION—(OUT OF ORDER).

The following resolution was offered:
By Senator Jones:

WHEREAS, In the Senate Journal of March 6, 1925, there are printed the names of certain appointments to the office of Regent of the University of California, as transmitted by the Governor to be ratified by the Senate; and

WHEREAS, Although by an amendment to the State constitution, adopted November 5, 1918, all provision for the ratification of regents' appointments was removed from the law, and although to continue to ratify such appointments might seem an unwise Senate recognition of a statute no longer existing and an unwarranted

restriction on the appointing power of the Governor; nevertheless, since failure to vote on the names of appointees already appearing on the Senate Journal, as proposed for ratification, might possibly be construed as discourtesy to these appointees; now, therefore, be it

Resolved, That we do now proceed to vote upon these names; but that, while doing so, this Senate desires to state its full recognition and insistence upon the following facts, as confirmed by the advice of the Attorney General: First, that provision for ratification of the appointment of University regents is no longer contained in the law; second, that the validity of these appointments as regent would be unaffected, either by a favorable vote, an unfavorable vote, or by no vote at all; third, that any vote for the consent of the Senate to such appointments is superfluous, and has been superfluous ever since November, 1918; and, finally, that any such vote today is not to be construed as constituting, on the part of this Senate, any precedent, or continuance of precedent, for such action in the future.

MESSAGES FROM THE GOVERNOR—(OUT OF ORDER).

The following messages from the Governor were received and read out of the regular order:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 22, 1925.

To the Senate and Assembly of the State of California.

GENTLEMEN: This is to advise you that I have signed the following bills:

Assembly Bills Nos. 431, 502 and 1192.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 23, 1925.

To the Senate of the State of California.

Senate Bill No. 66 is returned herewith without my approval. This bill amends section 1018 of the Penal Code by adding the words "*provided, however,* that if it appears to the court that the defendant is out of the county or is physically unable to be in open court, the same may in its discretion, permit a plea of guilty to be withdrawn, and a plea of not guilty to be substituted by counsel."

The present section has been on the statutes for the past fifty-two years and reads as follows:

> "1018. The plea of guilty can be put in by the defendant himself only in open court, unless upon indictment or information against a corporation, in which case it may be put in by counsel. The court may at any time before judgment, upon a plea of guilty permit it to be withdrawn and a plea of not guilty substituted."

The proposed change is a serious one to be considered. The present section very properly required the defendant in felony cases to be personally present in court, when either a plea of guilty or not guilty is made. This affords the greatest protection to the liberty of citizens and prevents anything being done in their absence. It seems proper that he should be present in court and understand fully what is being done. In the majority of cases of prisoners who are seeking executive clemency, I find there is complaint that the attorneys for the prisoners have done things which they did not approve. Of course most of these claims are false but in some cases they are true. In any event it points to the greatest necessity for the defendant to be in court and to know what is being done.

Able attorneys who have looked into this amendment feel that there is some degree of chance that the Supreme Court of the United States might determine (in writ of error therein) that such defendant had not been granted due process of law when his plea of not guilty of murder was put in during his absence from court. This possible unfavorable state of the law might thus exist not only where the charge was murder, but also in charges of larceny, false pretenses, embezzlement and, no doubt, as to the other charges of crime.

It will be noticed that the amendment used the word "same" in referring to the court, where it would have been much plainer to have used the word "court."

It is rather difficult to see the necessity for this amendment, especially where section 1191 of the Penal Code specifies the time in which the defendant must be sentenced after a verdict or plea of guilty. Several district attorneys whose attention has been called to this measure say that they see no good purpose that can be accomplished by it.

I have carefully read the argument presented both for and against the bill and do not believe that in the interests of justice it should be signed.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 66 ordered to unfinished business file.

Sec. 101. Construction, arrangement and adjustment of headlights. The headlights of motor vehicles shall be so constructed, arranged and adjusted that they will, at all times mentioned in Section 99 and under normal atmospheric conditions, produce ample driving light for the use of the operator of such vehicle but will not project a glaring or dazzling light to persons approaching such lights or to persons whom such headlights may approach.

Headlights shall be presumed to comply with this section if they comply with the following requirements and limitations when the vehicle upon which they are affixed is fully loaded; such compliance shall be presumed if such headlights are affixed to such vehicle in the manner required by this act and are of a type, or are equipped with lenses, reflectors or control devices which have been found to meet such requirements and limitations by the laboratory test provided in section one hundred two and when used in accordance with the instructions of the testing agency.

The light projected by such headlights shall be as follows:

1. In the median vertical plane parallel to the lamps on a level with the centers of the lamps, not less than one thousand eight hundred apparent candle power.

2. In the median vertical plane, one degree of arc below the level of the center of the lamps, not less than seven thousand two hundred apparent candle power and there shall not be less than seven thousand two hundred apparent candle power anywhere on the horizontal line through this point one degree to the left or to the right of this point.

3. In the median vertical plane, one degree of arc above the level of the center of the lamps not more than one thousand five hundred, nor less than five hundred apparent candle power.

4. Four degrees of arc to the left of the median vertical plane and one degree of arc above the level of the center of the lamps, not more than eight hundred apparent candle power.

6. Three degrees of arc below the level of the center of the lamps and six degrees of arc to the left and to the right, respectively, of the median vertical plane, not less than two thousand apparent candle power nor less than this amount anywhere on the line connecting these two points.

Provided it shall be lawful, when the above requirements and limitations are otherwise complied with, to so construct or equip the headlights of motor vehicles as to permit that the beams of light projected therefrom be depressed downward not more than three degrees of arc below the level otherwise required under this section but without diminishing the amount of light projected therefrom when so depressed. When the division of motor vehicles shall determine that any such device, when so operated during the times and under the conditions mentioned in section ninety-nine, will project a glaring or dazzling light to persons in front of such headlights or that such headlights when equipped or constructed with such device fail to produce ample driving light for the use of the driver of such vehicle, then the division shall refuse approval for the use thereof."

Reports of all such tests shall be accessible to the public and a copy thereof shall be furnished by the chief of the division of motor vehicles to the applicant for the test.

(*e*) Whenever the division shall receive from the testing agency a report that a particular device has been tested and approved, together with instructions as to the candlepower lamp or bulb and any particular adjustments to be used in connection with such device, the division shall issue to the applicant a certificate of approval, together with a copy of the instructions of the testing agency relative to the use of such device."

Sec. 130. Signals on turning. (*a*) The driver of any vehicle upon a public highway before starting, turning or stopping such vehicle shall first see that such movement can be made in safety, and if it can not be made in safety, shall wait until it can be made in safety; then, if the operation of any other vehicle may reasonably be affected by such movement, the driver shall give a signal plainly visible to the driver of such other vehicle of the intention to make such movement. Whenever the division shall approve a signal device as meeting the requirements hereinabove set forth, it shall give to the applicant a certificate of approval.

SEC. 101. Construction, arrangement and adjustment of headlights. The headlights of motor vehicles shall be so constructed, arranged and adjusted that they will, at all times mentioned in section ninety-nine and under normal atmospheric conditions, produce ample driving light for the use of the operator of such vehicle but will not project a glaring or dazzling light to persons approaching such lights or to persons whom such headlights may approach.

Headlights shall be presumed to comply with this section if they comply with the following requirements and limitations when the vehicle upon which they are affixed is fully loaded; such compliance shall be presumed if such headlights are affixed to such vehicle in the manner required by this act and are of a type, or are equipped with lenses, reflectors, or control devices which have been found to meet such requirements and limitations by the laboratory test provided in section one hundred two and when used in accordance with the instructions of the testing agency.

The light projected by such headlights shall be as follows:

1. In the median vertical plane parallel to the lamps on a level with the centers of the lamps, not less than one thousand eight hundred apparent candle power.

2. When the division of motor vehicles shall determine that any such device, when so operated during the times and under the conditions mentioned in section ninety-nine, will project a glaring or dazzling light to persons in front of such headlights or that

ON CIVIL SERVICE.

SENATE CHAMBER, SACRAMENTO, April 24, 1925.

MR. PRESIDENT: Your Committee on Civil Service, to which was referred Senate Bill No. 435—An act to provide for a Saturday half holiday for civil service employees of the State Board of Harbor Commissioners of the State of California, excepting watchmen, and providing penalties for the violation thereof—has had the same under consideration, and respectfully reports the same back, without recommendation.

GRAY, Chairman.

MESSAGES FROM THE GOVERNOR—(OUT OF ORDER).

The following messages from the Governor were received and read out of the regular order:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 24, 1925.

To the Senate of the State of California.

Senate Bill No. 438 is returned herewith, without my approval. This bill adds the county road from El Centro to Calexico to the State highway system. There is no need at the present time for this road being put into the State system.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 438 ordered to unfinished business file.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 24, 1925.

To the Senate of the State of California.

Senate Bill No. 337 is returned herewith without my approval. This bill appropriates $100,000 for emergency relief of Indians. A large number of Indians have protested against this bill and claim that it will prevent them from receiving federal appropriations amounting to several million dollars. The care of the Indians is in a large measure a federal function. The counties are authorized and empowered to take care of indigent Indians. Indian orphans and half-orphans are now provided for through the Bureau of State Aid for Children. The Indians feel that this bill will do them more harm than good.

The federal government has undertaken the care of Indians and until such time as they decide to abandon this work there is no reason for the State to interfere.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 337 ordered to unfinished business file.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 24, 1925.

To the Senate of the State of California.

Senate Bill No. 336 is returned herewith without my approval. This bill provides for the appointment of a committee to investigate and report upon the needs of the Indians of California, and appropriates $25,000 for that purpose. A great many Indians have protested against this bill. An investigation of the character proposed can be made by existing State boards in cooperation with county agencies without the appointment of a special committee or added expense.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 336 ordered to unfinished business file.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 24, 1925.

To the Senate of the State of California.

Senate Bill No. 312 is returned herewith without my approval.

This bill contains a number of errors and the author has requested that it be vetoed.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 312 ordered to unfinished business file.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 24, 1925.

To the Senate of the State of California.

Senate Bill No. 229 is returned herewith without my approval. This bill adds Peralta street in the city of Oakland to the State highway system, and appropriates $200,000. There is no reason why a city street should be added to the State system. The State Highway Commission is opposed to this bill.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 229 ordered to unfinished business file.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 24, 1925.

To the Senate of the State of California.

Senate Bill No. 107 is returned herewith without my approval. This bill is designed to validate the proceedings in the organization of the Tia Juana Irrigation District. This is special legislation and unconstitutional according to the decision of Miller and Lux vs. The Board of Supervisors, 189 Cal. 254. Attention is called to my action in declining to sign Assembly Bills Nos. 104, 485, and 902.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 107 ordered to unfinished business file.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 24, 1925.

To the Senate of the State of California.

Senate Bill No. 45 is returned herewith without my approval. This bill provides for a system of pensions for aged persons, creates a commission, and appropriates

$25,000 for carrying the act into effect. An old age pension would tend to encourage wastefulness and extravagance, and would be an injustice to those who practice thrift and economy. The law at present provides for caring for aged persons so this bill is unnecessary.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Senate Bill No. 45 ordered to unfinished business file.
